## Clinical Nurse Leader Program Information

Research College of Nursing is a full-accredited private college specializing in quality nursing education since 1905. Currently the college offers both an undergraduate Bachelors of Science in Nursing (BSN) and Master of Science in Nursing (MSN) degree. Research College began offering a Master of Science in Nursing degree in 1997. The MSN Program offers six graduate tracks: Family Nurse Practitioner, Adult-Gero Nurse Practitioner, Executive Practice & Healthcare Leadership, Nurse Educator, Clinical Nurse Leader, and RN-MSN. The Clinical Nurse Leader track prepares graduates for the role as a bedside leader and as an expert in evidence based practice and quality improvement.

#### Student Instructions:

See the RCN website ([www.researchcollege.edu](http://www.researchcollege.edu)) for additional practicum/clinical requirements. Each student will assist their preceptor in completing the Preceptor Agreement found below prior to the first practicum day.

#### Preceptor qualifications:

1. Current license in state where practicum is located.
2. Master of Science degree from an NLNAC or CCNE accredited school.
3. Experienced CNL preferred, but other preceptors can be used with approval only.
4. Well established in the clinical agency and can assist student in networking with professionals in other disciplines.
5. Experience mentoring new graduates and/or graduate level nurses and understands the implications of the role.
6. Time and resources to spend with the graduate student on selected days.
7. The student and preceptor employed at the same facility may not be approved.
8. Instructor must approve all preceptors prior to the start of each course.

Dear Preceptor,

Thank you for agreeing to serve as a preceptor for a Clinical Nurse Leader (CNL) student. The primary purpose of this program is to prepare and develop experts in bedside nursing leadership with specialty training in teamwork and communication, evidenced based practice, and quality improvement. Each student will be eligible to sit for the national CNL certification exam upon completion of the program.

The Clinical Nurse Leader (CNL) track is offered entirely online with no on-ground requirements other than the practicum experiences. The final year of the CNL track requires 2 practicum courses: CNL Practicum I (taken the first semester) and CNL Practicum II (taken the second semester). The total number of practicum hours is 360 between both courses.

Research College of Nursing will need a copy of your résumé along with the preceptor agreement found on the next page. The student should assist you with completion of the agreement and in answering other questions.

One primary role of the preceptor is to ensure that the student has access to individuals who can assist them in their learning experiences. The purpose of the practicum time is an immersion experience that allows the student to grow in the CNL professional competencies and role expectations. The student may also participate in activities that are available and designed by the preceptor, such as special meetings, projects etc. Students are required to complete a variety of assignments during each semester that demonstrate the specialty skills learned during previous coursework.

Please feel free to communicate with faculty at any time and as often as needed, either via telephone or email. Faculty will also be requesting information about the student periodically throughout the semester. We appreciate honest and open feedback on the student's performance and growth. On-site visits are not made because of the online nature of the program and many students are out of state.

Thank you again for your willingness to support not only our students, but the profession in development of future leaders in nursing.

Sincerely,  
Becky Hulett, MSN, RN, CNL
